

# WIN (What In-house lawyers Need)

## THE INNOVATION AGENDA

As the world and businesses are adapting to a temporary new way of working, your training needs during this time will inevitably change also. In recognition of this, we have devised a series of 'agendas' to support you on your in-house journey and keep you and your team connected during this time. Each agenda contains a parcel of podcasts, articles, webinars and videos which are available on demand for you to unwrap as you please. Access the [full series of agendas](#).

For the next instalment in our series, we bring you The Innovation Agenda, where we will explore first-hand how leaders of in-house legal are incentivising efficiency, disrupting the norm and creating change.

We hope you find The Innovation Agenda useful and look forward to receiving the next instalment in a fortnight. If you have any queries or feedback please contact us at [win@dlapiper.com](mailto:win@dlapiper.com).
